

SPRING  
—  
COLLECTION

MODERNFORMS  
MEDALS & TROPHIES

The preparation of events is a big challenge for organisers, especially when they want to **stand out** from the crowd. In an era of interest in **ecology** and **CSR** activities, it is worth choosing original **eco-awards** when setting up an event.

We would like to present **the SPRING collection of “living” trophies**, which was inspired by nature and created using eco-friendly materials. The main protagonist of the collection is **reindeer moss**, which has been used in all designs.

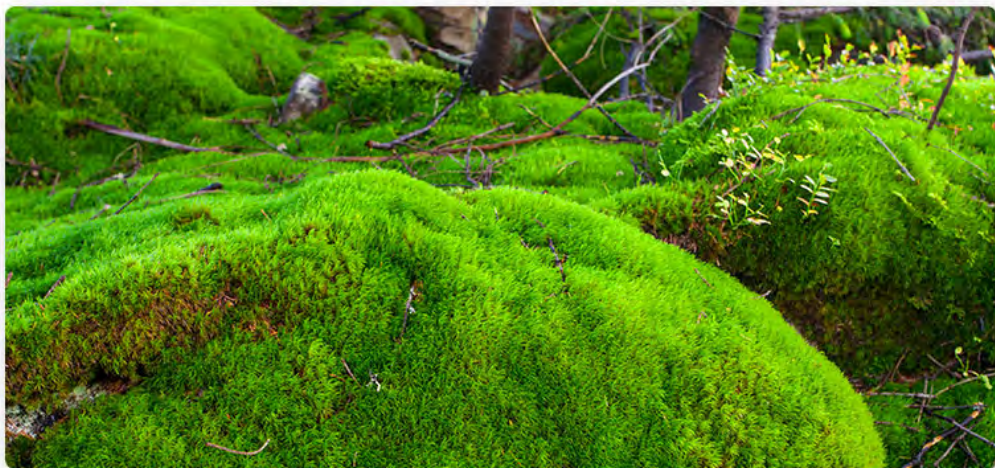

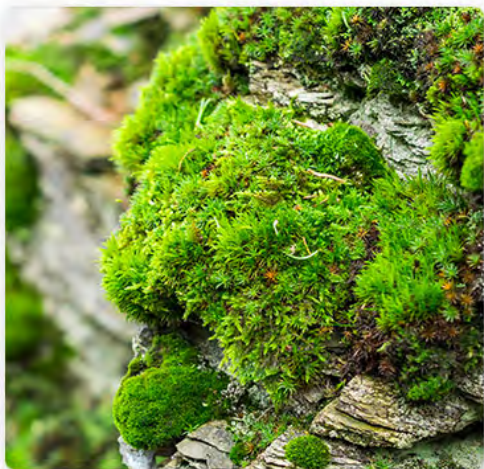

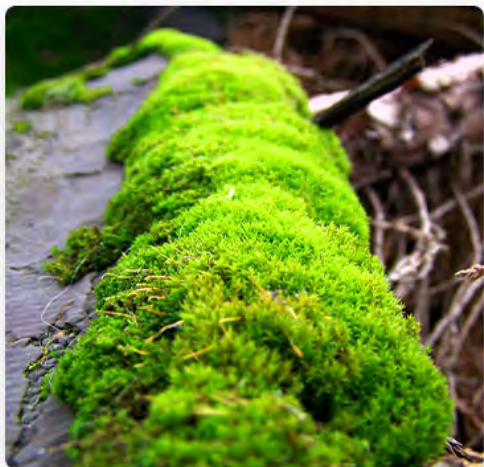

**Reindeer moss** is a lichen native to **Scandinavian forests** that is harvested by hand and properly stabilised to retain its **fresh appearance** for as long as possible. The moss is maintenance-free but should be stored as recommended.

The collection includes six **modern and trendy trophies** made of natural materials such as wood, glass, metal, and **moss**, which gives them a unique character and makes them the perfect award with an **eco spirit**.

Each of these forms can **be adapted** to the event. However, if you have your own idea for an award, designers from Modern Forms will be happy **to prepare** an **individual design** for you with a **WOW** effect!

**Check out the collection!**

Unconventional trophy in the shape of an alarm clock filled with **moss**. The main piece is set on a wooden base with an engraved plaque. **Award** for individuals and institutions working in the **spirit of ecology**.

#### **MATERIALS:**

- steel
- moss
- wood
- cork

A vibrant trophy in a **minimalist style**, combining oiled wood with an element of **moss**.  
The engraving on the front piece can be **personalised** as desired.  
A unique award to recognise those who have **nature at heart**.

**MATERIALS:**

- moss
- wood
- cork

An **elegant trophy** with an openwork element made of gold-coloured steel. The background of the front piece is moss, placed in a **wooden frame**. Any text can be placed on the front element. An ideal award for a traditional, **environmentally friendly** company.

#### **MATERIALS:**

- steel
- moss
- wood
- cork

An original wooden trophy **inspired by nature**. The main element of moss has been placed in the centre of the award, adding **a fresh and original character**. The award is aimed at institutions or companies that are committed to **environmental protection**.

**MATERIALS:**

- moss
- wood
- cork

A striking yet simple trophy made of **natural materials** such as wood, glass, and stabilised moss. Free **personalization** of the printing on the front element. It will work well as a **universal award** for organisations that follow **CSR policies**.

#### **MATERIALS:**

- glass
- wood
- moss
- cork

**Minimalist trophy** made of two wooden pieces and a decorative element made of **moss**. On the front element is an engraving that can be freely modified. An **original award** for city authorities or companies that are **pro-environmental**.

**MATERIALS:**

- moss
- wood
- cork

Let's get to know each other! We are **Modern Forms** - leading European manufacturer of **sports, business awards and promotional gadgets**.
